Workspace: Powering your results, supercharging your impact

Easily navigable cross-asset insights and content

Open, future-proofed workflow environment

Scalable, powerful analytics

Fast and lightweight

Intelligent to drive efficiencies

Work better, faster and smarter – from anywhere

Financial markets are rapidly changing

Proliferation and complexity of data requirements

Solutions must enable access to the right data at the right time

Analytics and modelling increasingly critical to success

Requires robust framework and infrastructure to build and maintain efficiently

Fragmented workflows across user journeys

Non-integrated tools, applications and data structures

Access to technology and data

New generation of 'non-expert' users involved in data analysis and model generation

The promise of Al becoming reality

Al brings opportunities to transform business processes, including content discovery and access

Reshaping the future of global finance together

Transform data discovery, delivery, and management

Generate differentiated and actionable insights

Simplify and empower workflows

Innovate and operate at speed and at scale

It is a significant challenge to effectively consolidate internal and external data into clean and structured feeds and efficiently manage operational costs

When preparing for a meeting, I have to sort through mountains of data and information from multiple sources which takes a lot of my time.

Partnering to transform our industry

Solving critical issues

for **45,000+** customers in **170** countries including **100** of the top **100** global banks by total assets, and **78** of the top **100** asset managers, with more than 400,000 end users.

Compelling combination

of financial market infrastructure, data and analytics drives innovative products and solutions

Commitment to partnership

Flexible access to our products and services

Trusted expertise with global scale
